- Alcohol testing is done by analyzing a blood sample, which is collected in a private location.
- The collection site person collects the blood sample in the employee's presence. The sample is sent to a testing laboratory certified by the DHSS.
- At the laboratory, a screening test is performed on the primary sample. If the reading is less than 0.04 the test will be reported as negative.
- If the employee refuses to be tested or to sign the testing form, the test is considered to be positive and the laboratory will immediately notify the Designated Employer Representative.

HOW IS ALCOHOL TESTING DONE?

Public Safety Personnel must submit to alcohol and drug testing. If a unit member refuses to be tested, it is considered a positive test result, the consequences of which will be in effect. Refusal to test is defined as any time the employee fails to provide enough blood for alcohol testing or enough urine for controlled substances testing (without a valid medical excuse) after being notified of the test, or if the employee otherwise obstructs the testing process.

WHAT HAPPENS IF I REFUSE TO BE TESTED?

- 4. Transfer:

HOW IS DRUG TESTING DONE?

- Drug testing is done by analyzing a urine sample, which is collected in a private location.
 - In accordance with MGL Chapter 94C, all drug tests will consist of determinations of the presence of five drugs, classes of drugs, or their metabolites: marijuana, amphetamines, cocaine metabolites, opiates metabolites, phenacyclidine (PCP), and LSD), methadone, barbiturates and benzodiazepines.
 - The collection site person divides the urine sample into two containers in the employee's presence. The primary sample is sent to a testing laboratory certified by the DHS.
 - At the laboratory, a screening test is performed on the primary sample. If this test is positive for drugs, a confirmation test is required.
 - The confirmation test will be done (on the same sample) using a specialized procedure called gas chromatography/mass spectrometry, to ensure that over-the-counter drugs are not reported as positive.
 - If the first test is positive, the Medical Review Officer (MRO) will contact the employee to find out if there is a medical reason for drug use. If the MRO determines a legitimate medical reason, the test may be reported as negative.
 - After being notified that the first test was positive, the employee will have 48 hours to contact the MRO and request a test of the split specimen. If the employee does not contact the MRO within 48 hours, but can prove a legitimate reason for not doing so, the MRO may order the split specimen to be tested per request of the employee. The MRO will then notify the designated College Representative of the request for the second test. To ensure objectivity, the split specimen is sent to a different DHS certified lab for testing. The costs associated with testing a split specimen shall be the responsibility of the employee.
 - Removal from public safety duties is required following the first positive drug test.
 - The College must place the employee on paid administrative leave upon notification of the first positive drug test. If the sample does not confirm the presence of a drug, the employee need not be placed on paid administrative leave.
 - This case any paid leave used or time off the payroll will be restored to the employee.
- WHAT ARE THE CONSEQUENCES OF VIOLATING THE ALCOHOL OR DRUG PROHIBITIONS?**
- Consistent with the provisions of Article 28 of the Collective Bargaining Agreement, the following consequences will apply:
- A test of less than 0.040 shall not be considered a positive test.
 - A test of 0.040 but under 0.060 Positive alcohol tests

 - No return to duty test is required for an alcohol test result less than 0.060.
